SAMPLING AND SAMPLE DISTRIBUTION:

Sampling method	:	Randomly sampling as per SN/T 0736.1-2012
Description of sampling	:	48 bags were randomly selected for sampling, the sample materials were taken from the top opening to the bottom of the selected bags by standard probe. After sampling, the sample was finally mixed thoroughly and prepared into 3 sets of composite samples. One set was sent to SGS Tianjin laboratory for required analysis, and 2 sets were retained in our Tianjin sample preparing room for 3 months.
Note	:	The testing results please refer to the testing report.

SGS Report No.: MCHTJ2401418-01A

The findings of the stored Goods inspection contained herein (the "Findings") strictly relate to and cover examination of part or parts of the Goods safely accessible for inspection in accordance with the client's instructions. The Findings only relate to the time and place of inspection and do not constitute nor are intended to constitute evidence of the existence of part or all of the Goods prior to and after the time of inspection. SGS does not control the storage place of the Goods nor has any responsibility for the storage, custody and safety of the Goods. SGS does not guarantee nor make any representation about i) the accuracy and authenticity of the documents presented by the operator of the storage place (if any); ii) ownership of and title to the Goods; iii) quantity and quality of the Goods. SGS accepts no liability for the consequences of any action taken or not taken on the basis of this certificate/report.

The manual sampling method was agreed with the SGS Principal, as sampling by more reliable methods was not possible. The suitability of this sampling method is defined by the standard.

As per the instruction from the principal, SGS conducted the inspection for nominated cargo, without performing vessel and/or containers loading or discharging supervision. Therefore, the contents of this report/certificate only reflects our findings at the time and place of inspection, and does not refer to any cargo that was shipped from or will be received at any port.
